How to Setup and Re-skinning

Hello! ☐ Thanks for purchasing my game source code. I hope that you will understand the code easily as it is written neatly, all you need to do is to open this code in unity latest version or whatever version you have installed.

You only need to change the graphic which you can easily do by going into the resource folder.

replace all the images by keeping the same name and size to avoid any misunderstanding.

you can also replace music and sounds that are integrated in the game source code.

Now to change the ad ids go to ad manager and replace the ad ids with yours

and the code will be ready for you to use. ☐ for any trouble you can contact us via comment or msg. ☐ Thanks
